SENATOR SIMPSON: Senator Schmit.

SENATOR SCHMIT: Very briefly the amendment causes some concern on the part of a few people that the Department of Agriculture might misconstrue the intent of the legislature provides that the rules and regulations promogated will only relate to the sections of the act that are involved in this bill and will not refer to the federal bill. It does not provide authority to implement any of the federal rules and regulations only those that are embodied in this bill and secondly because there was some concern and justifiably so, apparently, about the cost of the bill and the fact that perhaps the federal government may fund the bill. The other part of the amendment provides that if federal funds become available where the administration of the pesticide laws in this state, such funds shall be used prior to the expenditure of any funds appropriated to carry out the provisions of this act. I hope that meets the objections that might have rise from anybody in this body or out of it and I move the adoption of the amendment.
